Education

MIT Art Design and Technology University
B.Tech in Computer Science and Engineering

CGPA : 9.30

P.P Savani Cambridge International School
Class 12

Jee Mains : 93.02 %

Technical Skills&Tools

Programming Languages: C/C++, JavaScript, , Python, MySQL, HTML, CSS

Technologies: React, Node, Express, MySQL, MongoDB

Software/Tools: VS Code, Git, GitHub, Hoppscotch

Experience

Backend / Full-Stack Developer (Project Based)

- Developed backend APIs using **Node.js** and **Express** for academic and self-initiated projects, enabling smooth communication between frontend and database.
- Designed and implemented **CRUD** operations using **MongoDB** and **MySQL** for efficient data storage and retrieval.
- Integrated frontend components using **React** with backend services to build functional full-stack applications.
- Handled server-side validation, routing, and error handling to improve application reliability.
- Used **Git** and **GitHub** for version control, project management, and collaborative development.

Projects

[DSA Visualizer](#)

React, Node.js, Express, MongoDB

- Developed an interactive DSA Visualizer to demonstrate the working of core Data Structures and Algorithms.
- Visualized algorithms such as sorting (Bubble, Selection, Insertion) and searching, helping users understand step-by-step execution.

[Personal Portfolio Website](#)

HTML, CSS, JavaScript |

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, education, and contact information.
- Built clean and structured UI using HTML and CSS, focusing on readability and professional layout.
- Added interactivity and smooth navigation using JavaScript.

Achievements

- Successfully designed and implemented multiple full-stack and backend projects using MERN-stack technologies.
- *Secured Top 50 position out of 900 teams across the entire university in SIH (Smart India Hackathon).*
- *Achieved Top 11 ranking among 100+ teams in Avinya 4.0 Hackathon.*
