Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer and Computer Science student with hands-on experience building scalable web applications using the **MERN** stack and modern frontend technologies. Skilled in developing **responsive UIs**, **backend APIs**, real-time systems, and interactive visualizations. Experienced in implementing secure authentication systems including **cookie-based authentication** and **Google OAuth**. Proficient in building end-to-end applications with strong focus on performance, scalability, and user experience. **Experienced in hackathons, collaborative development, and deploying production-ready projects.**

EXPERIENCE

Full-Stack Developer

- Developed scalable backend **APIs** using **Node.js** and **Express.js** for multiple full-stack applications.
- Designed and implemented **CRUD** operations using **MongoDB** for efficient data management and retrieval.
- Integrated React frontend applications with backend services to create responsive and functional web platforms.
- Implemented **authentication**, **routing**, **validation**, and **error-handling** mechanisms to improve application reliability.
- Used **Git** and **GitHub** for version control, collaborative development, and project management.
- Worked on interactive frontend components and optimized UI responsiveness across devices.

EDUCATION

MIT Art Design and Technology University	CGPA : 9.30	June 2024 - Present
• B.Tech in Computer Science and Engineering		
P.P Savani Cambridge International School		2022- 2023
• Class XII — JEE Mains: 93.02%		

TECHNICAL SKILLS & TOOLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases & Tools:** MongoDB, MySQL, Firebase Studio
- **Authentication & APIs:** Cookie-Based Authentication, Google OAuth, REST APIs
- **Programming Languages:** C/C++, JavaScript, Python
- **Developer Tools:** Git, GitHub, VS Code, Hoppscotch
- **Software Concepts:** CRUD Operations, Responsive Design, Data Structures & Algorithms, OOPs
- **AI/ML & Data Science:** TensorFlow, PyTorch, NumPy, Pandas, Matplotlib, Scikit-learn

PROJECTS

PERSONAL PORTFOLIO WEBSITE

HTML, CSS, JavaScript, GSAP

- Developed a responsive personal portfolio website to showcase projects, skills, and achievements with a **modern UI**.
- Built interactive and reusable frontend components using **HTML**, **CSS**, and **JavaScript** with focus on responsiveness and accessibility.
- Integrated **GSAP** animations and smooth transitions to enhance user experience and engagement across devices.

DSA VISUALIZER (Freelance Project)

React.js, JavaScript, CSS

- Developed an interactive DSA Visualizer using **React.js** to demonstrate real-time execution of core Data Structures and Algorithms.
- Implemented visualization modules for sorting and searching algorithms including **Bubble Sort**, **Selection Sort**, **Insertion Sort**, and **Binary Search** using dynamic state management.
- Built **responsive** and **reusable** UI components to enhance algorithm analysis, user interaction, and learning experience.

CERTIFICATIONS

- Introduction to Web Development
- Introduction to Artificial Intelligence (AI)
- Generative AI: Introduction and Applications
- AI For Everyone
- Fundamentals of Machine Learning and Artificial Intelligence
- Foodoscope Fork It Challenge 2025
- National AI/ML Hackathon by Vivriti Capital
- Graph-E-Thon 3.0

ACHIEVEMENTS

- Selected among the **Top 200 teams out of 900+ university teams in Smart India Hackathon(SIH) 2025**
- Secured top 11 position in 24-hour hackathon organized by JSPM, Pune competing with multiple interdisciplinary teams
- **Secured Top 10th Position out of 7500+ teams in Vivriti Capital Hackathon held at IIT Hyderabad**
- **Secured 10th Position out of 1000+ teams in Foodoscope Hackathon held at IIIT Delhi**
- Ranked among the Top 10 finalists out of 3200+ teams in a hackathon organized at MIT Art, Design and Technology University for developing an innovative team-based solution.
